Stinson Production Record

Larry Westin - January 1, 2022

The original printed list courtesy of Univair Aircraft Corporation, via David Talley.

More Stinson aircraft information at the Stinsonflyer.com homepage, see URL http://www.stinsonflyer.com/ac-0.htm

This specific Stinson model 108-2 list at URL http://www.stinsonflyer.com/avtextsf/Stinson_108-2_sn_2201_to_3500.pdf This file has 27 pages, this header page plus 26 pages of production record. Stinson manufactured 1252 model 108-2 airplanes.

The Stinson model 108-2 equipped with a Franklin 165HP 6A4-165-B3, or -B4 engine, with a gross weight of 2230 pounds.

Stinson model 108-2, serial numbers 108-2250 through 108-3500, plus 108-1474

Stinson manufactured 1252 model 108-2 production aircraft. According to the FAA Type Certificate A-767, sometime after manufacture Stinson serial number 108-3100 modified from as manufactured model 108-2 to a model 108-1. Serial number 108-3100 manufactured as a model 108-2 is now shown by the FAA not as a model 108-2, rather as a model 108-1, although the data plate continues to show it as a model 108-2.

Serial number 108-1474 was used by Stinson as the model 108-2 prototype and is shown by the FAA as a model 108-2.

At the time Stinson manufactured the various model 108's registration numbers for aircraft sold in the United States were all prefixed with NC. Aircraft sold for export sometimes have a registration, other times the registration is left blank. Most often when the export registration is not known at the time of manufacture there is a notation in the remarks column of what country the airplane was sold to.
