

CONSOLIDATED VULTEE AIRCRAFT CORPORATION

STINSON DIVISION
WAYNE, MICHIGAN

December 4, 1947
Bulletin 40

TO: ALL STINSON DEALERS

VOYAGER PRODUCTION

At the suggestion of our Dealers, we are planning to increase our production of Voyagers to 25 percent of our total production. This increase in Voyager production will not begin until April, since it takes time to get the necessary materials into the factory. You might be interested to know that we must place orders for some materials twelve months in advance.

We will continue to produce 90 percent Station Wagons and 10 percent Voyagers until April.

Sincerely yours,

CONSOLIDATED VULTEE AIRCRAFT CORPORATION

J. P. Shaw
Assistant Sales Manager
