

The Stinson 108 Voyager Clubs
By Larry Westin - April 14, 1996
Rev 13 - 10/18/14 - Page 1 of 2

This is a list of clubs which support Stinson aircraft. My thanks to Andy and Chris Greenwood, of Diamond Head, Mississippi, at <chrco@aol.com>, for suggesting I add this list to my Stinson information.

Many advantages are available from belonging to a Stinson Club. They provide a lot of information about parts, service, technical tips and much other information. Most arrange fly ins where you can find others with an interest in the Stinson, and learn a lot.

If I have missed any Stinson club please let me know and I will add them. Currently I only have an Internet WWW Homepage and E-Mail address for the International Stinson Club. I will add an Internet WWW link on this article for each of the clubs who has an address. If you can provide any additional Internet addresses for any Stinson club(s) please let me know (contact info at end of this article).
