

SERVICE PARTS AND ACCESSORIES LETTER

STINSON DIVISION
CONSOLIDATED VULTEE AIRCRAFT CORPORATION
WAYNE, MICHIGAN

TO: Distributors, Direct Factory Dealers and
Distributor's Dealers

LETTER NO.: 3

TITLE: Baggage Compartment Conversion Kit

PAGE 1 OF 1

DATE: January 30, 1947

Gentlemen:

We have developed a baggage compartment conversion kit that will permit the earlier 1947 models to be equipped with this desirable feature. We know this is going to be very welcome news to the field and suggest that orders be entered immediately in order to be scheduled for early delivery when these kits become available.

Present plans indicate that we will be able to start shipments on or about March 25, 1947. A list price of \$105.00 f.o.b. Wayne, Michigan has been established, and discounts are the same as you now enjoy on purchases of complete airplanes. This kit will come to you complete with all parts for performing the changeover plus complete installation instructions.

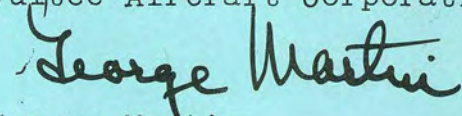

Ordering specifications are:

Part No. 108-3912000 Baggage Compartment Installation Kit--\$105.00

Due to lower gross weight it will not be possible to install this kit in the 1946 models.

Yours very truly,

STINSON DIVISION
Consolidated Vultee Aircraft Corporation

TITLE: Baggage Compartment Conversion Kit -
Installation Time

LETTER NO.: 3-A

PAGE 1 OF 1

DATE: March 17, 1947

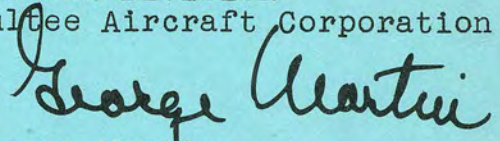

Gentlemen:

This letter supplements Parts and Accessories Letter No. 3 advising that Baggage Compartment Conversion Kits for the early 1947 models would be available on or about March 25, 1947.

We have just completed an installation analysis to determine the time required for making this installation in the field. For your guidance in making estimates to your customers on this conversion we estimate that installation can be easily accomplished in from 28 to 30 manhours. This total includes approximately two hours to study the installation prints and instructions.

Yours very truly,

STINSON DIVISION
Consolidated Vultee Aircraft Corporation
