

SERVICE PARTS AND ACCESSORIES LETTER

158-L

STINSON DIVISION
CONSOLIDATED VULTEE AIRCRAFT CORPORATION
WAYNE, MICHIGAN

TO: Distributors and Direct Factory Dealers

LETTER NO.: 4

TITLE: Airplane Mooring Kit

PAGE 1 OF 1

DATE: February 5, 1947

Gentlemen:

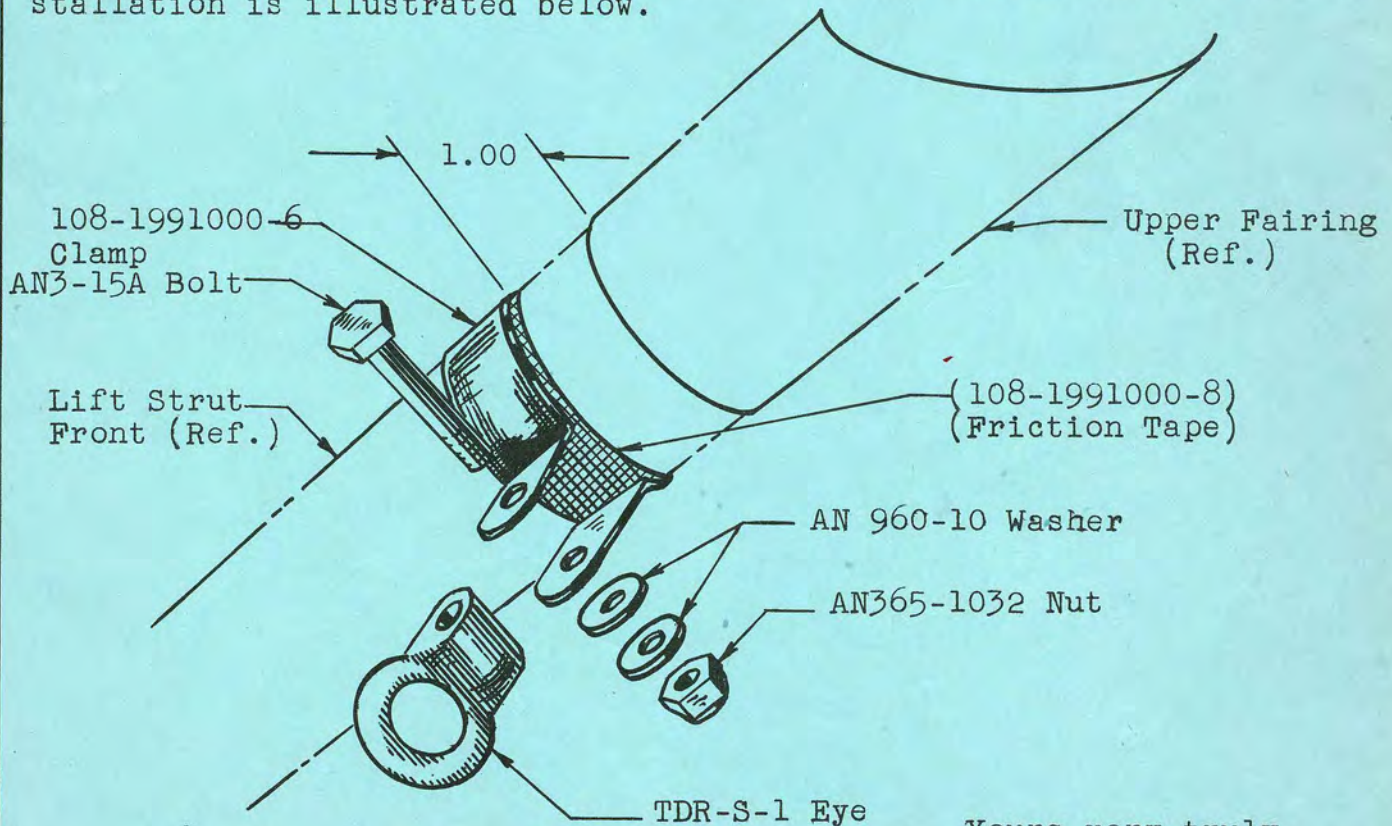

We are pleased to announce availability of an Airplane Mooring Kit as an accessory item. Not only will this kit lend utility to ground handling, but will add life to your lift struts by eliminating a prevalent cause for lift strut damage---careless tie-downs.

We expect to be in a position to make shipments on or about February 15, and ordering specifications are as follows:

Part No. 108-1991000 Airplane Mooring Kit \$1.98 per kit

Discounts are 40% to Distributors and Direct Factory Dealers. It is recommended that 25% be allowed Distributor's Dealers and 10% to Authorized Service Stations.

A kit includes sufficient parts for both front struts and correct installation is illustrated below.

Yours very truly,

STINSON DIVISION
Consolidated VulTEE Aircraft Corp.
