Gentlemen:

This letter cancels and supersedes letter No. 24-D on this subject.

The McCauley propeller, on which we have previously provided performance and servicing data, is now approved for the model 108-2 landplane and seaplane as well as the model 108-3 landplane and seaplane.

Because of the excellent performance obtained with these propellers we feel they are an accessory item that can profitably be used by most Stinson owners. In order to allow you to stimulate the sale of these items we have decided to revise our prices downward in accordance with the following:
